FX DEEP DIVE

Pacing guide · 7 class periods

PACING

Teacher

7 class periods, as on my project menu. The "My plan" column is my day-by-day pacing guide as I wrote it; the other columns show what to put on the screen and in students' hands.

CLASS	MY PLAN	TEACHER MOVES	DECK	STUDENT PAGES
CLASS 1	**Class 1:** Review the 11 FX from class notes. Listen to examples. Students choose their source.	Slides 1–6: hook (dry, then mixed), what effects do, the seven classes, steps 1 and 2, why each effect needs a reason. Hand out the project sheet, the FX notes and the Source log.	Slides 1–6	p. 13, p. 14, p. 17, p. 18, p. 19, p. 21
CLASS 2	**Classes 2–5:** Core working days — apply FX, EQ all tracks, set panning.	Slides 7–11: the live EQ demo on a soloed track, pan the band, reverb and delay on a send, compression by the numbers. Then work time; circulate.	Slides 7–11	p. 15, p. 16
CLASS 3		Slide 12: EQ and pan every track. Then work time.	Slide 12	—
CLASS 4		Slide 13: add effects with a reason and A/B each one. Then work time.	Slide 13	—
CLASS 5		Full working day: refine the mix. Ask each student to bypass one effect and tell you what changed.	No new slides	—
CLASS 6	**Class 6:** Final adjustments, bounce. Prepare presentations and write 3 Padlet feedback questions.	Slides 14–16: refine and bounce, what you turn in, the rubric. Students self-score, bounce and post their three questions.	Slides 14–16	p. 20, p. 22
CLASS 7	**Class 7:** Presentations with Padlet Q&A peer feedback.	Slides 17–18: presentation day and the close. Every student presents and answers 2 of each classmate's questions. Reflection (page 23) follows the presentations.	Slides 17–18	p. 22, p. 23

THE ONE RULE FOR CLASS 2

From my common struggles: do the EQ demo early, with dramatic cuts and boosts on a soloed track. Slide 8 is that demo, and the EQ guide (page 10) is your script.

CLASSES 3–5

Working days. Slides 12 and 13 open Classes 3 and 4; Class 5 has no new slide. Circulate and ask: why is that effect there, and what happens when you bypass it? For my mix critique day, use the end of Class 5 or Class 6 to play two or three volunteer mixes on the main speakers.

MIX CHECK (STEP 5) ·

- ☐ Listened on headphones
- ☐ Listened on speakers, or on a different pair of headphones
- ☐ Left and right feel balanced
- ☐ I can hear every important part
- ☐ I bypassed each effect once to check it helps

Project sheet · requirements and steps

STUDENT

Name _____ Date _____

REQUIREMENTS ·

- ☐ Choose your source: remix your own previous project OR pick a multitrack from Cambridge-MT
- ☐ Use at least 5 different FX from the 11 covered in your class notes
- ☐ Every track in your mix must be EQ'd and panned thoughtfully
- ☐ FX choices should be stylistically appropriate for the genre
- ☐ Your final mix should demonstrate clarity, depth, and balance

STEPS / PROCESS ·

1. **Review** — Revisit your notes on the 11 FX from the Native Instruments video (notes page: page 14)
2. **Choose your source** — Decide whether to remix your own project or download a multitrack from Cambridge-MT (log it on page 13)
3. **Plan and apply FX** — Add at least 5 different effects across your mix. Think about genre conventions. (FX log: page 16)
4. **EQ and pan every track** — Shape tone with EQ and place each instrument in the stereo field (Track map: page 15)
5. **Refine your mix** — Adjust levels, tweak FX settings, and check on headphones and speakers
6. **Finalize** — Bounce your final mix and prepare to walk the class through your FX choices
7. **Present & Get Feedback** — Create your own Padlet post with 3 questions you want classmates to answer about your project. Present to the class. During classmates' presentations, answer at least 2 of their 3 questions on their Padlet post.

Rubric

RUBRIC

/ 25

Name _____ Date _____

GRADING RUBRIC /25

FX Deep Dive | Structured Project

Each category is scored 1–5. Your final grade is the average of your self-score and your teacher's score.

Category	1	2	3	4	5
CREATIVITY & ORIGINALITY	Minimal creative effort; relies on defaults or clichés	Some creative ideas but largely predictable	Shows originality; experiments with sound or style	Highly creative; unique approach with clear artistic intent	Exceptional creativity; innovative, bold, and expressive
TECHNICAL SKILL / DAW USE	Limited understanding of Logic Pro tools	Basic tool use with frequent errors	Competent workflow; uses tools correctly	Advanced use of Logic features and shortcuts	Expert-level command of multiple Logic systems
COMPOSITION & STRUCTURE	Disorganized; no clear form or direction	Some structure present but underdeveloped	Clear, cohesive form with logical sections	Engaging structure with dynamic progression	Professional pacing, flow, and musical arc
SOUND DESIGN & MIX QUALITY	Poor sound choices; unbalanced or muddy mix	Some variety but inconsistent levels and EQ	Good sound selection; mostly balanced mix	Strong sound palette; clean, well-balanced mix	Exceptional sound design; professional-quality mix
DOCUMENTATION & PRESENTATION	Missing or incomplete; no reflection	Minimal documentation with little insight	Satisfactory; provides basic detail and reflection	Well-documented; clear and thoughtful reflection	Exceptional; thorough insight and polished delivery

Student Score: _____ / 25	Teacher Score: _____ / 25
Final Grade = Average of Student + Teacher = _____ / 25
