PRINT AND MAKE

Woodland Gift Tags

Four steps from your printer to the tree

1. **Print at actual size**
Choose 100% or "actual size" in the print dialog, not "fit to page", so the tags come out 2.5 × 4 in and 1.75 × 2.75 in. Use white or cream card stock (about 160 to 250 gsm, 65 to 110 lb) for tags that stand up to string.

2. **Cut along the grey line**
Scissors work for every shape. For the straight-sided tags a paper trimmer or a craft knife and ruler is quick. The grey line is the cut line and sits right at the edge of the pattern.

3. **Punch the hole**
The cream ring with the dotted circle shows where to punch. A 1/4 in (6 mm) hole punch is ideal. The ring gives the hole a little extra strength.

4. **Write, thread, tie**
Fill in To and From with a pen or pencil, thread twine, ribbon or baker's string through the hole and tie it on. Print again whenever you need more.

Large tags · 12
2.5 × 4 in (63.5 × 101.6 mm)
Pages 1 and 2 · greeting, To and From lines

Small tags · 12
1.75 × 2.75 in (44.5 × 69.9 mm)
Page 3 · To and From lines
