PRINT AND CUT

Botanical Valentine Set

Four steps from your printer to the gift

1 Print at actual size

Choose 100% or "actual size" in the print dialog, not "fit to page". Use white or cream card stock, about 160 to 250 gsm (65 to 110 lb), so the cards and tags hold their shape.

2 Cut along the grey line

Scissors work well, and a paper trimmer is quick for the straight sides. Snip the corners round or angled to follow the grey line.

3 Punch the tag hole

Punch the small grey circle at the top of each tag with a hole punch, then thread on baker's twine, ribbon or thin string. The cards need no folding: they stand alone as flat Valentine cards.

4 Write your note

Fill in the To and From lines with a pen, gel pen or paint pen, and use the blank back of a card for a longer message. Print again whenever you need more.

Ideas

Tie a tag to a treat bag, a jar of cookies, a bunch of flowers or a bottle. Slip a card in a lunchbox, a school bag or the mail. Both sizes suit class Valentine swaps, galentine and family gifts.
