HUDSON BEAT

CAROL FLIP

Same tune, new genre.

LOGIC PRO PROJECT · CLASS 1 · SAME TUNE, NEW GENRE

THINK: WHAT STAYS THE SAME?

THINK, THEN SHARE

Teacher: say or hum the first line of Jingle Bells slowly and sadly, then fast and bouncy.

- What stayed the same?
- What changed?
- How much can you change before it stops being the tune?

WHAT IS CAROL FLIP?

- Choose a public-domain carol
- Enter its melody in Logic Pro
- Flip it into any genre
- Finish with 60 to 90 seconds

FOUR CLASSES

CLASS 1	Same tune, new genre · five moves · reading a piano roll
CLASS 2	Enter the melody · one flip · genre is in the drums
CLASS 3	Worked example, 75 seconds · mix and keep the tune
CLASS 4	Checklist · rubric · presentations

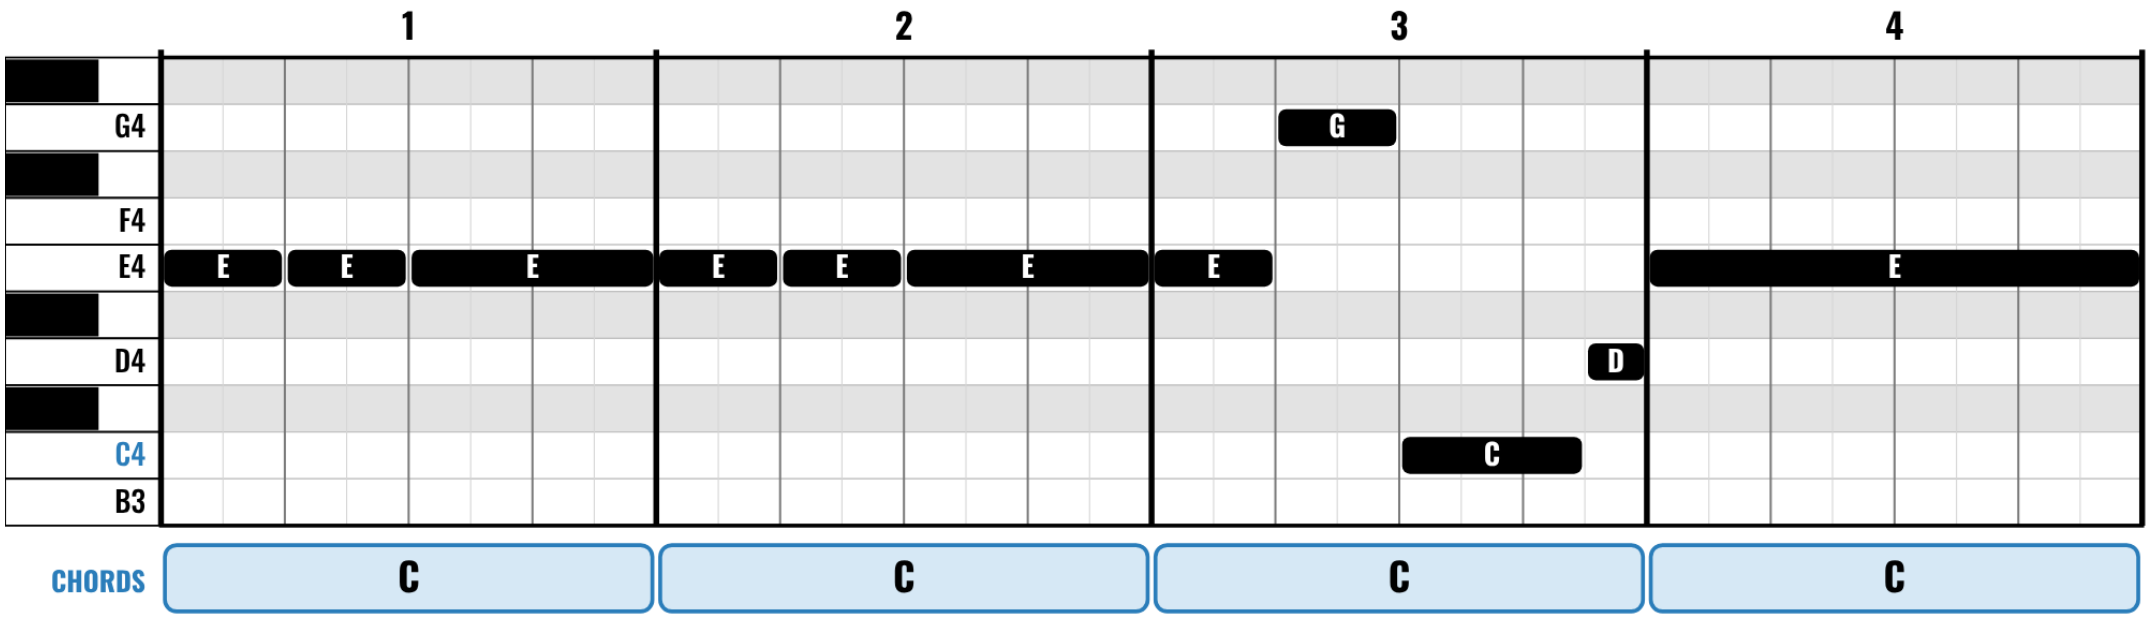

FIVE MOVES, THEN FINISH

Then mix, bounce, present and reflect

- Choose a carol and a genre
- Enter the melody from the chart
- Plan what you will flip
- Flip it, arrange it, mix it

READING A PIANO ROLL

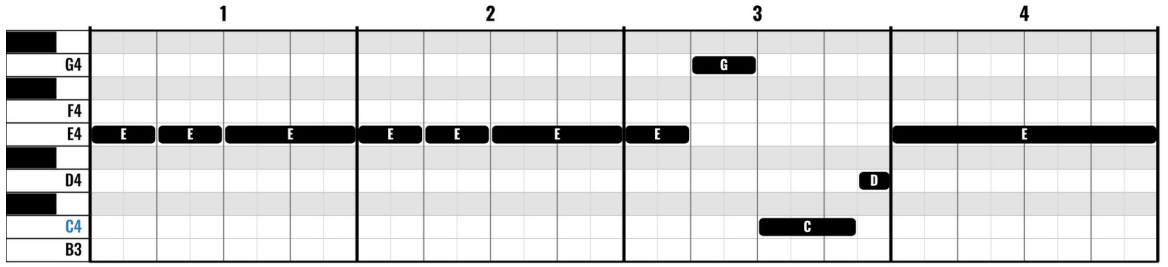

- Higher bar means higher pitch
- Left to right is time, bar by bar
- Longer bar means a longer note
- The chords are one idea that fits

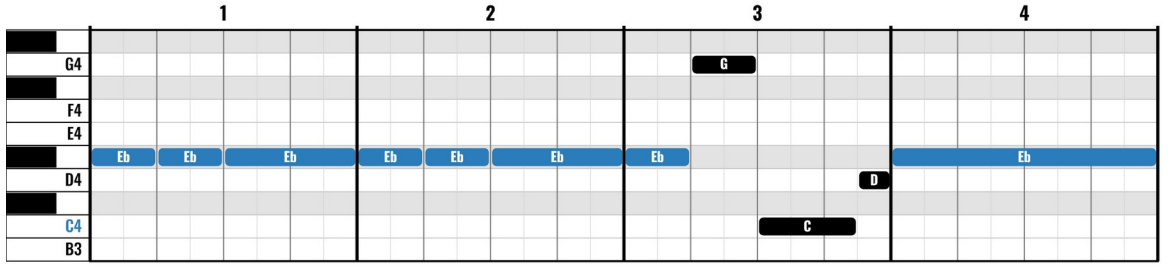

ENTER THE MELODY

1. Set the tempo and the time signature (6/8 for Silent Night)
2. Make a Software Instrument track and a MIDI region
3. Open the Piano Roll and set the grid to sixteenth notes
4. Draw each note from the chart, bar by bar
5. Play it back and fix any wrong note

ONE FLIP: MAJOR TO MINOR

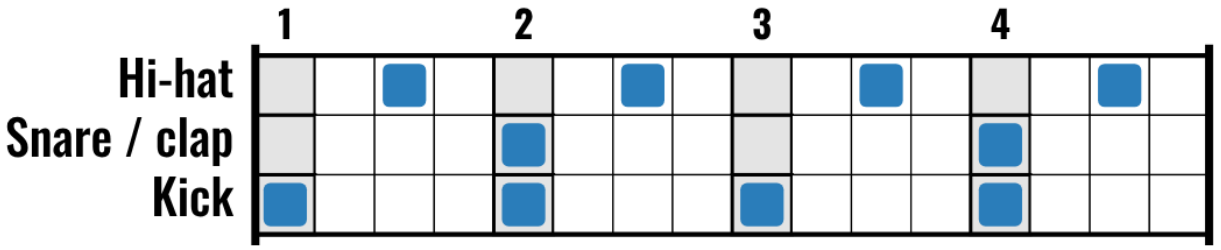

ORIGINAL · C major

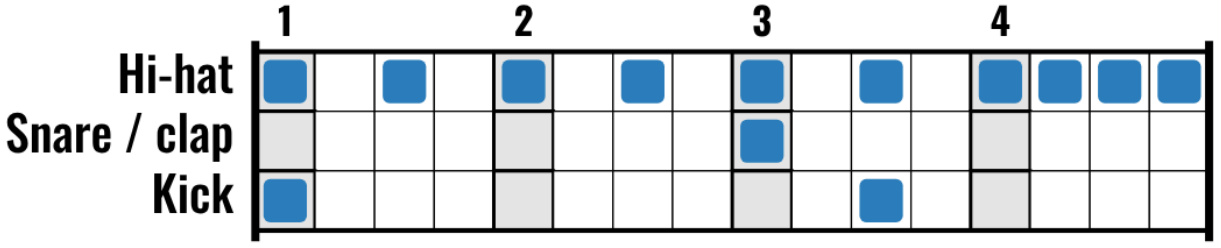

THE FLIP · C minor: every E becomes Eb

- Same notes, same lengths
- Only the E’s move, down a half step
- Major sounds bright, minor darker
- One flip of the three you need

GENRE IS IN THE DRUMS

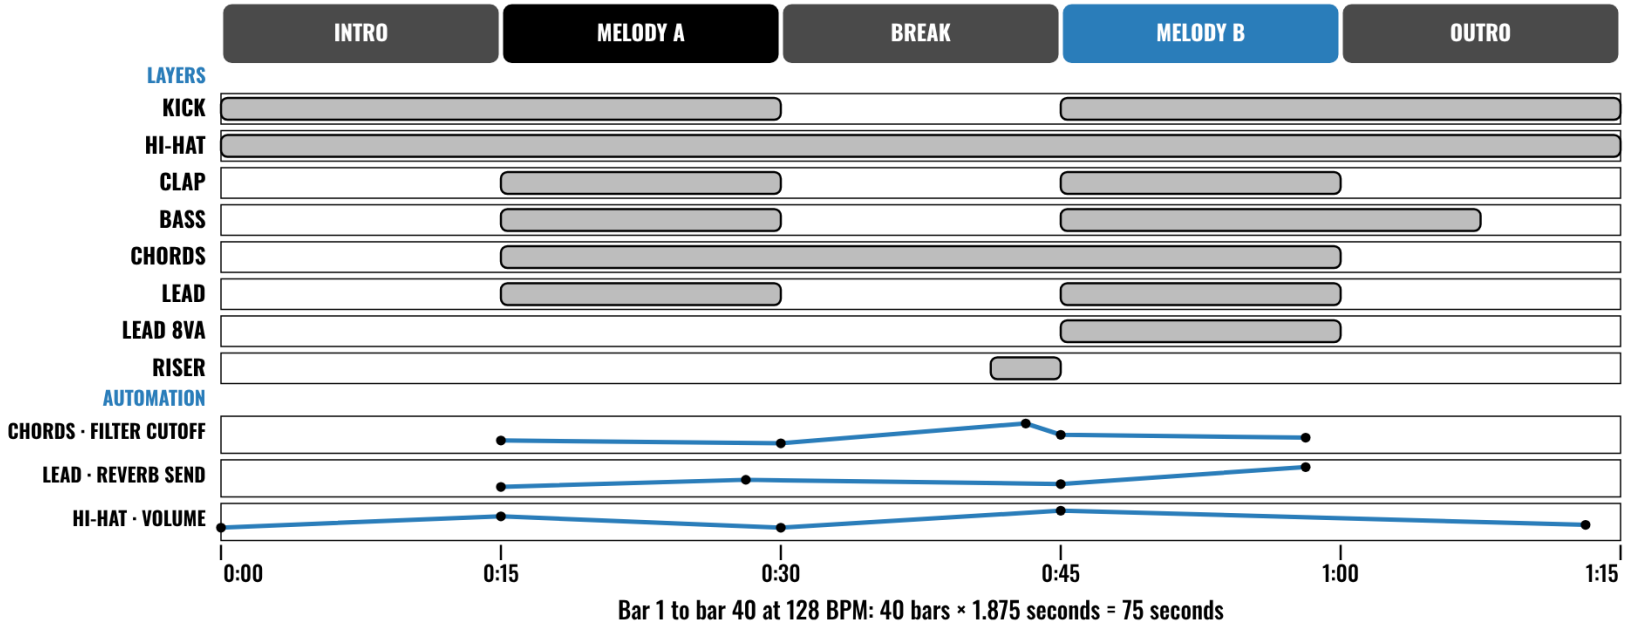

House

Trap

Same grid, two genres: house (kick on every beat) and trap (snare on beat 3 only)

WORKED EXAMPLE: 75 SECONDS

Bar 1 to bar 40 at 128 BPM: 40 bars × 1.875 seconds = 75 seconds

- An invented 75-second remix
- Five sections of eight bars
- Eight layers, three automation lanes
- Melody B has the most layers

MIX IT, KEEP THE TUNE

- Can you name the carol in ten seconds?
- Turn the backing down, not the melody up
- Can you hear every layer?
- Add one effect that fits the genre

WHAT YOU TURN IN

- [ ] Bounced .mp3 or .wav
- [ ] Zipped .logicx project
- [ ] Named: Your Name – Carol Flip – Carol, Genre
- [ ] Flip plan, Arrangement plan, Reflection
- [ ] Rubric self-score
- [ ] Three questions for classmates

HOW IT'S SCORED

MELODY ACCURACY	5 = Exact, and any planned change (octave, mode) is done correctly and on purpose	/ 5
THE FLIP	5 = A confident, original take: every choice says the genre and the carol is unmistakable	/ 5
GENRE CRAFT	5 = Sounds like the genre: groove, bass, chords and effects all line up	/ 5
ARRANGEMENT & MIX	5 = A form that builds and resolves; every layer audible, melody on top	/ 5
PLAN & REFLECTION	5 = Insightful reflection and a polished, confident presentation	/ 5

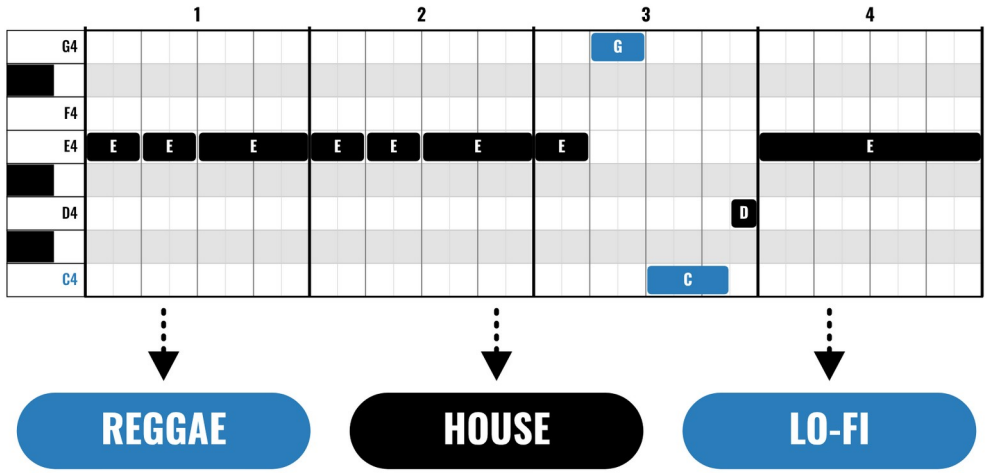

SCORED 1–5 · FINAL GRADE = AVERAGE OF YOUR SCORE AND MINE · / 25

PRESENTATION DAY

- Play your remix, then name the carol
- Say the three things you flipped
- Your three questions for classmates
- Answer at least 2 of each classmate’s

ONE LAST THING...

- You picked a carol.
- You flipped it.
- The tune still shines.
- Now press play.

REFLECTION · PAGE 25

Write it or talk it through: what went well, what was hard, what you would change.
