HUDSON BEAT

INFINITE HORIZON

Make a sound that never sits still.

DIGITAL MUSIC PRODUCTION 2 · CLASS 1 · MAKE A SOUNDSCAPE THAT NEVER SITS STILL

THINK: MUSIC WITH NO BEAT

CLOSE YOUR EYES

Think, then share

Teacher: no audio is needed. You may play a short ambient piece you choose; none is included.

- Can music have no beat and still go somewhere?
- What is a sound that slowly changes, like wind or a hum?
- How would you make a sound feel like it is moving?

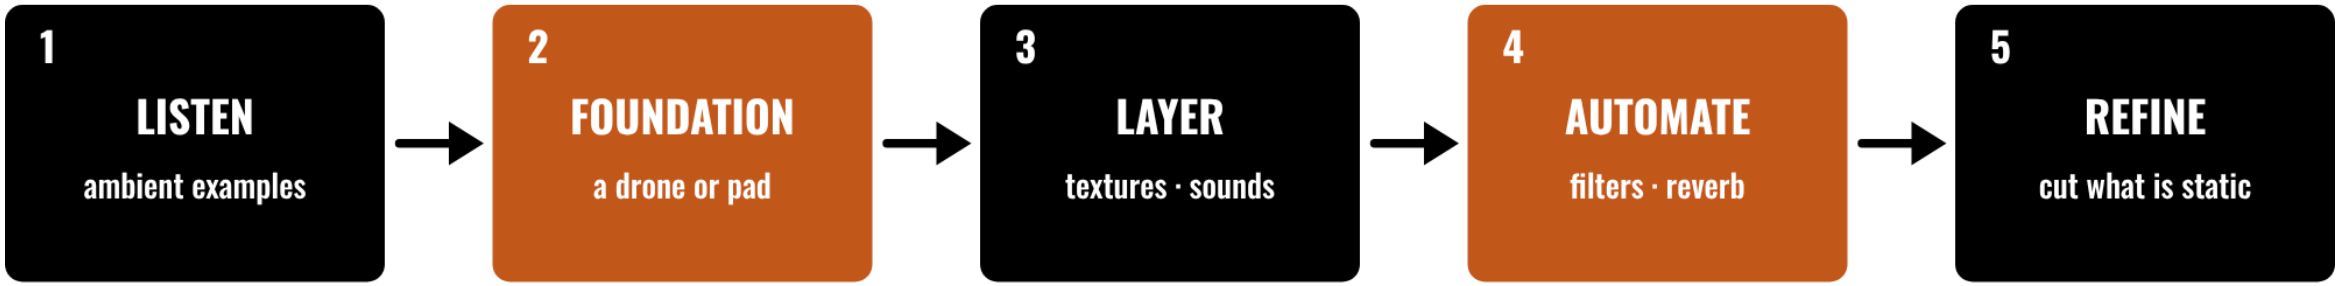

WHAT IS INFINITE HORIZON?

- A soundscape that never sits still
- An evolving ambient piece
- Automation, modulation and layering
- No traditional rhythm or song structure

SEVEN CLASSES

CLASS 1	A sound with no beat · the steps · five words · listen, then build a drone
CLASS 2	Opening, evolution, climax, fade · texture, not rhythm · layer
CLASS 3	Working day: automate, worked example
CLASS 4	Working day: patience, refine, eyes closed
CLASS 5	Working day: automate, refine, evolve
CLASS 6	Mix for depth · bounce · checklist · rubric
CLASS 7	Presentations with Padlet Q&A

FIVE STEPS, THEN FINISH

Then finalize: mix for depth, bounce, present and get feedback

- Listen to ambient examples
- Layer, then automate
- Build a drone or pad base
- Refine: cut what is static

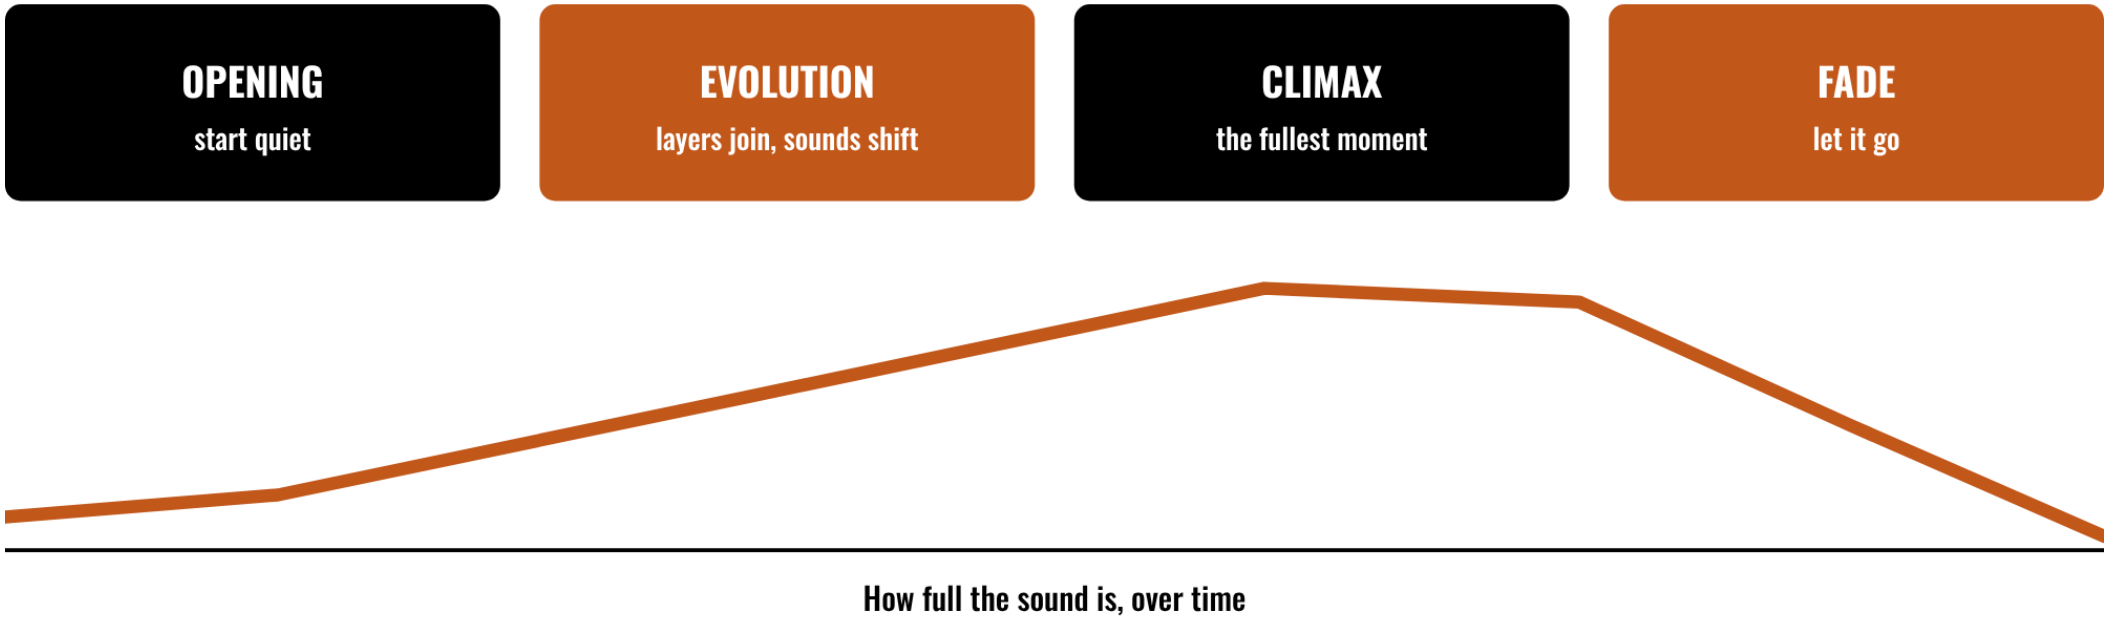

FIVE WORDS TO KNOW

- Soundscape: texture and atmosphere, not melody or rhythm
- Drone: a sustained tone or chord
- Automation: changing a parameter over time
- Modulation: one signal controlling another
- Ambient: tone, atmosphere and texture

STEPS 1 AND 2: LISTEN, BUILD

1. Study examples of ambient and soundscape music
2. Write what you hear on the Listening log
3. Create a drone or pad as your base texture
4. Make it long and steady, so layers can sit on it

THINK IN FOUR PHASES

- Opening: start quiet
- Evolution: layers join and shift
- Climax: the fullest moment
- Fade: let it go

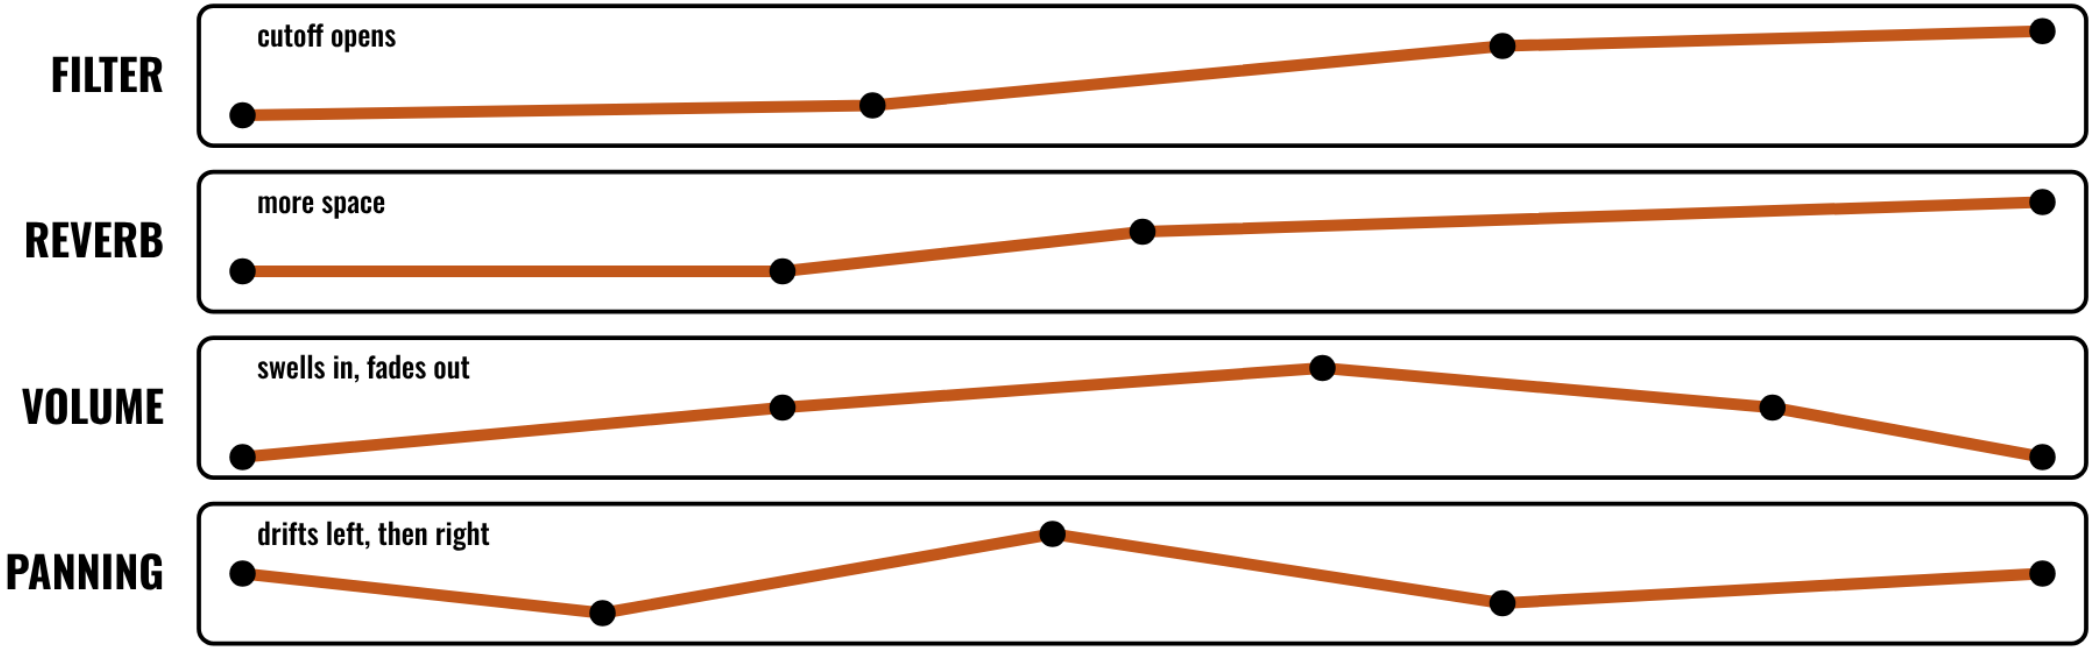

TEXTURE, NOT RHYTHM

- Avoid traditional rhythm and song structure
- Focus on motion and space
- Students often add a beat: take it out
- Ask: what changes while it plays?

STEP 3: LAYER

1. Add textures, sounds and atmospheric elements
2. Use synths, samples and FX
3. Keep the drone underneath
4. Add one layer at a time, and listen

AUTOMATE EVERYTHING

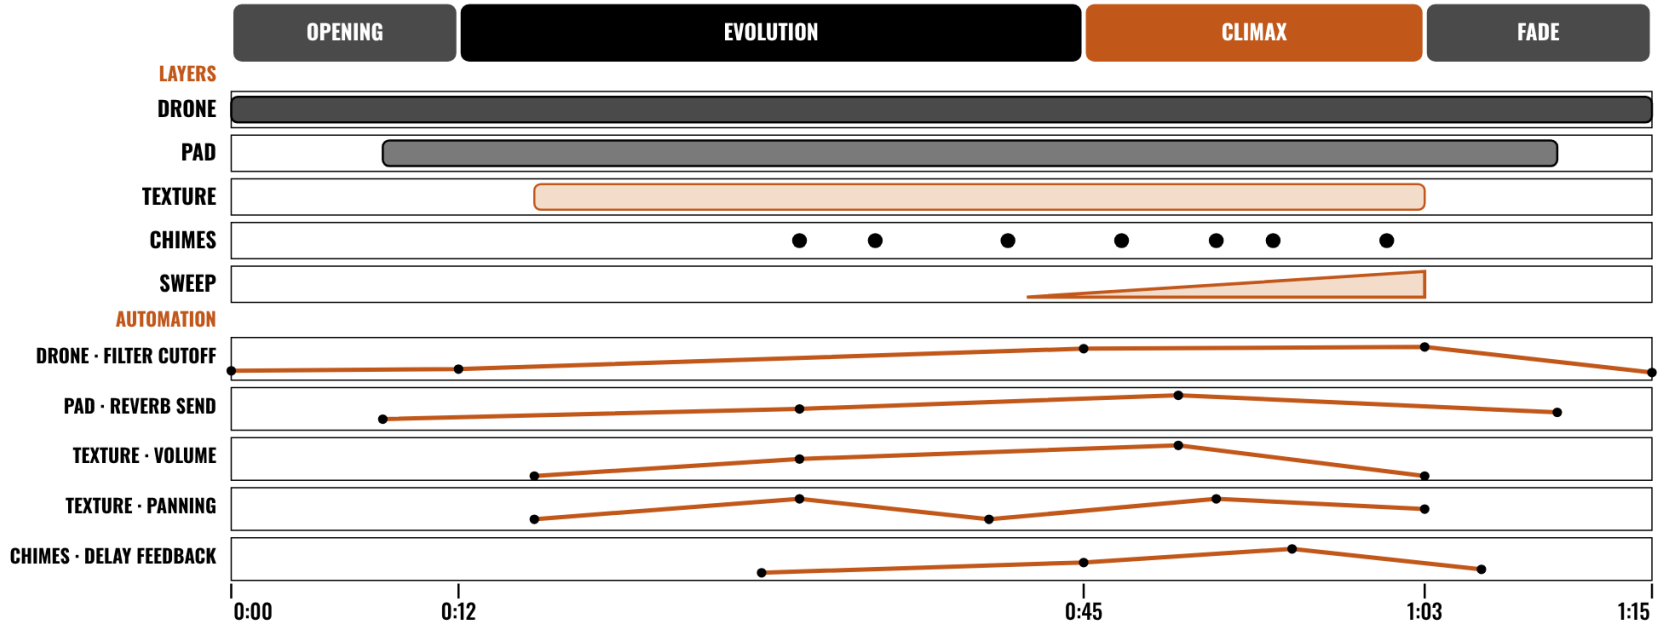

Every dot is a point you draw; Logic joins them

STEP 4: AUTOMATE

- Draw automation on filters, reverb, volume and panning
- Change parameters over time
- Make every transition gradual
- Count your lanes on the Automation plan

WORKED EXAMPLE: 75 SECONDS

- An invented 75-second piece, on paper
- Four phases you can name
- Five layers that join and leave
- Five automation lanes, none flat

BE PATIENT

- Let sounds evolve slowly
- Do not rush changes
- Reverb and delay create a sense of space
- If a parameter never moves, it sounds flat

STEP 5: REFINE

- Listen for flow and pacing
- Remove anything that feels static or repetitive
- Close your eyes: does it take you somewhere?
- Harder option: 5+ automation lanes and Alchemy

STEPS 6 AND 7: MIX, BOUNCE

1. Mix for depth and space
2. Bounce your soundscape
3. Zip the .logicx project
4. Create your Padlet post with 3 questions
5. Prepare to present

WHAT YOU TURN IN

- [ ] Bounced .mp3 or .wav
- [ ] Zipped .logicx project
- [ ] Named: Your Name – Infinite Horizon
- [ ] Padlet post with your 3 questions
- [ ] Answer 2 questions on classmates' posts

HOW IT'S SCORED

CREATIVITY & ORIGINALITY	5 = Exceptional creativity; innovative, bold, and expressive	/ 5
TECHNICAL SKILL / DAW USE	5 = Expert-level command of multiple Logic systems	/ 5
COMPOSITION & STRUCTURE	5 = Professional pacing, flow, and musical arc	/ 5
SOUND DESIGN & MIX QUALITY	5 = Exceptional sound design; professional-quality mix	/ 5
DOCUMENTATION & PRESENTATION	5 = Exceptional; thorough insight and polished delivery	/ 5

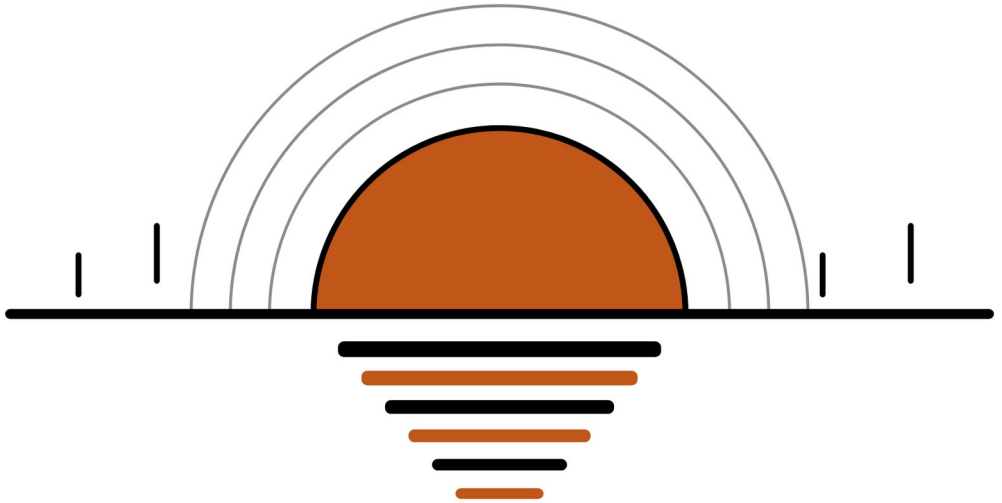

SCORED 1–5 · FINAL GRADE = AVERAGE OF YOUR SCORE AND MINE · / 25

PRESENTATION DAY

- Play your soundscape
- Say what you wanted it to feel like
- Your Padlet post: 3 questions about your project
- Answer at least 2 of each classmate’s 3

ONE LAST THING...

- You made it move.
- You gave it space.
- You let it evolve.
- Now listen.

REFLECTION · PAGE 22

Write it or talk it through: what went well, what was hard, what you would change.
